

Product Information

Yeast Nitrogen Base (YNB), without Ammonium Sulfate and Amino Acids

Cat. No.: **HN-1124-TT1**

This product is for research use only and is not intended for diagnostic use.

Product Overview

Yeast Nitrogen Base (without Ammonium Sulfate) is a compound of trace elements, vitamins, and inorganic salts that does not contain ammonium sulfate. It mainly provides trace elements and growth factors for the cultivation of yeast (including *Saccharomyces cerevisiae* and *Pichia pastoris*). This product is mainly used for preparing nutrient deficient screening and expression media for yeast, such as preparing SD screening medium, RD medium, MD medium, MM medium, MG medium, etc.

Applications

Yeast cultivation

Size

100g/10×100g

Storage

RT

Recommended dosage

1.7g/L
