

Product Information

Recombinant Anti-Human mmp12 Antibody scFv Fragment

Cat. No.: **MOM-18437-S(P)**

This product is for research use only and is not intended for diagnostic use.

Product Overview

Recombinant Mouse Antibody scFv Fragment specifically binds to Human MMP12, expressed in E. coli

Antigen Description

May be involved in tissue injury and remodeling. Has significant elastolytic activity. Can accept large and small amino acids at the P1" site, but has a preference for leucine. Aromatic or hydrophobic residues are preferred at the P1 site, with small hydrophobic residues (preferably alanine) occupying P3.
