

Product Information

MemDX™ Membrane Protein Human ADRB3 (Adrenoceptor beta 3) Full Length

Cat. No.: **MPC0033K**

This product is for research use only and is not intended for diagnostic use.

This product is a 43.5 kDa Human ADRB3 membrane protein expressed in Baculovirus/Insect expression system. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Description

Expression Systems

Baculovirus/Insect expression system

Tag

Based on specific requirements

Protein Format

Detergent or based on specific requirements

Form

Liquid

Storage

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles.

Target**Target Protein**

ADRB3

Full Name

Adrenoceptor beta 3

Introduction

The protein encoded by this gene belongs to the family of beta adrenergic receptors, which mediate catecholamine-induced activation of adenylate cyclase through the action of G proteins. This receptor is located mainly in the adipose tissue and is involved in the regulation of lipolysis and thermogenesis. Obesity and bodyweight-related disorders are correlated with certain polymorphisms in three subtypes of beta-adrenoceptor, among them, the ADRB3 gene.

Alternative Names

BETA3AR; adrenergic, beta-3-, receptor; beta-3 adrenoceptor; beta-3 adrenoreceptor; ADRB3; Adrenoceptor beta 3
