

Product Information

MemDX™ Membrane Protein Human GPR78 (G protein-coupled receptor 78) Full Length

Cat. No.: **MPC0177K**

This product is for research use only and is not intended for diagnostic use.

This product is a 39.3 kDa Human GPR78 membrane protein expressed in HEK293. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Description

Expression Systems

HEK293

Tag

Based on specific requirements

Protein Format

Detergent or based on specific requirements

Form

Liquid

Storage

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles.

Target**Target Protein**

GPR78

Full Name

G protein-coupled receptor 78

Introduction

The protein encoded by this gene belongs to the G protein-coupled receptor family, which contain 7 transmembrane domains and transduce extracellular signals through heterotrimeric G proteins. This is an orphan receptor, which displays significant level of constitutive activity. Association analysis shows preliminary evidence for the involvement of this gene in susceptibility to bipolar affective disorder and schizophrenia. Alternatively spliced transcript variants have been found for this gene.

Alternative Names

G-protein coupled receptor 78; UNQ5925; PRO19818; GPR78; G protein-coupled receptor 78
