

# **Product Information**

# MemDX™ Membrane Protein Human GRM4 (Glutamate metabotropic receptor 4) Full Length

Cat. No.: MPC0187K

This product is for research use only and is not intended for diagnostic use.

This product is a 101.8 kDa Human GRM4 membrane protein expressed in Baculovirus/Insect expression system. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

## **Product Specifications**

**Host Species** 

Human

**Target Protein** 

GRM4

**Protein Length** 

Full length

**Protein Class** 

**GPCR** 

**Molecular Weight** 

101.8 kDa

**TMD** 

7

# **Product Description**

## **Expression Systems**

Baculovirus/Insect expression system

#### Tag

Based on specific requirements

#### **Protein Format**

Detergent or based on specific requirements

#### **Form**

Liquid

## **Storage**

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles.

## **Target**

## **Target Protein**

GRM4

#### **Full Name**

Glutamate metabotropic receptor 4

# Introduction

L-glutamate is the major excitatory neurotransmitter in the central nervous system and activates both ionotropic and metabotropic glutamate receptors. Glutamatergic neurotransmission is involved in most aspects of normal brain function and can be perturbed in many neuropathologic conditions. The metabotropic glutamate receptors are a family of G protein-coupled receptors, that have been divided into 3 groups on the basis of sequence homology, putative signal transduction mechanisms, and pharmacologic properties. Group I includes GRM1 and GRM5 and these receptors have been shown to activate phospholipase C. Group II includes GRM2 and GRM3 while Group III includes GRM4, GRM6, GRM7 and GRM8. Group II and III receptors are linked to the inhibition of the cyclic AMP cascade but differ in their agonist selectivities. Several transcript variants encoding different isoforms have been found for this gene.

# **Alternative Names**

mGlu4; GPRC1D; MGLUR4; glutamate receptor, metabotropic 4; GRM4; Glutamate metabotropic receptor 4

# Gene ID

**2914**
