

Product Information

MemDX™ Membrane Protein Human AQP1 (Aquaporin 1 (Colton blood group)) Full Length

Cat. No.: **MPC0390K**

This product is for research use only and is not intended for diagnostic use.

This product is a 28.5 kDa Human AQP1 membrane protein expressed in Baculovirus/Insect expression system. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Description

Expression Systems

Baculovirus/Insect expression system

Tag

Based on specific requirements

Protein Format

Detergent or based on specific requirements

Form

Liquid

Storage

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles.

Target**Target Protein**

AQP1

Full Name

Aquaporin 1 (Colton blood group)

Introduction

This gene encodes a small integral membrane protein with six bilayer spanning domains that functions as a water channel protein. This protein permits passive transport of water along an osmotic gradient. This gene is a possible candidate for disorders involving imbalance in ocular fluid movement.

Alternative Names

CO; CHIP28; AQP-CHIP; aquaporin-1; Colton blood group antigen; aquaporin 1 (channel-forming integral protein, 28kDa, CO blood group); aquaporin 1, Colton blood group antigen; aquaporin-CHIP; channel-like integral membrane protein, 28-kDa; urine water channel; water channel protein for red blood cells and kidney proximal tubule; AQP1; Aquaporin 1 (Colton blood group)
