

Product Information

MemDX™ Membrane Protein Human NTRK1 (Neurotrophic receptor tyrosine kinase 1) Full Length

Cat. No.: **MPC1254K**

This product is for research use only and is not intended for diagnostic use.

This product is a 87.4 kDa Human NTRK1 membrane protein expressed in HEK293. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Full Name

Neurotrophic receptor tyrosine kinase 1

Introduction

This gene encodes a member of the neurotrophic tyrosine kinase receptor (NTRK) family. This kinase is a membrane-bound receptor that, upon neurotrophin binding, phosphorylates itself and members of the MAPK pathway. The presence of this kinase leads to cell differentiation and may play a role in specifying sensory neuron subtypes. Mutations in this gene have been associated with congenital insensitivity to pain, anhidrosis, self-mutilating behavior, cognitive disability and cancer. Alternate transcriptional splice variants of this gene have been found, but only three have been characterized to date.
