

Product Information

MemDX™ Membrane Protein Human CEACAM3 (CEA cell adhesion molecule 3) Full Length

Cat. No.: **MPC2477K**

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order Human CEACAM3 membrane protein expressed in HEK293. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Description

Expression Systems

HEK293

Tag

Based on specific requirements

Protein Format

Detergent or based on specific requirements (Detergent, Liposome, Nanodisc, Polymer, VLP)

Form

Liquid

Storage

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -72°C or lower. Avoid freeze/thaw cycles.

Target**Target Protein**

CEACAM3

Full Name

CEA cell adhesion molecule 3

Introduction

This gene encodes a member of the family of carcinoembryonic antigen-related cell adhesion molecules (CEACAMs), which are used by several bacterial pathogens to bind and invade host cells. The encoded transmembrane protein directs phagocytosis of several bacterial species that is dependent on the small GTPase Rac. It is thought to serve an important role in controlling human-specific pathogens by the innate immune system. Alternatively spliced transcript variants have been described.

Alternative Names

CEACAM3; CEA; CGM1; W264; W282; CD66D; carcinoembryonic antigen-related cell adhesion molecule 3; CD66d antigen; carcinoembryonic antigen CGM1; carcinoembryonic antigen gene family member 1; carcinoembryonic antigen related cell adhesion molecule 3; nonspecific cross-reacting antigen; CEA cell adhesion molecule 3
