

Product Information

MemDX™ Membrane Protein Human MRAP2 (Melanocortin 2 receptor accessory protein 2)

Full Length

Cat. No.: **MPC4082K**

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order Human MRAP2 membrane protein expressed in HEK293. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Description

Expression Systems

HEK293

Tag

Based on specific requirements

Protein Format

Detergent or based on specific requirements (Detergent, Liposome, Nanodisc, Polymer, VLP)

Form

Liquid

Storage

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -72°C or lower. Avoid freeze/thaw cycles.

Target

Target Protein

MRAP2

Full Name

Melanocortin 2 receptor accessory protein 2

Introduction

This gene encodes a protein that modulates melanocortin receptor signaling. The encoded protein has been shown to interact with all known melanocortin receptors and may regulate both receptor trafficking and activation in response to ligands. Mice lacking a functional copy of this gene exhibit severe obesity and a mutation in this gene may be associated with severe obesity in human patients.

Alternative Names

MRAP2; C6orf117; bA51G5.2; MC2R accessory protein 2; Melanocortin 2 receptor accessory protein 2
