

Product Information

MemDX™ Membrane Protein SARS-CoV-2 S1 Mutation (Omicron, B.1.1.529) (Surface glycoprotein)

Cat. No.: **MPX4702K**

This product is for research use only and is not intended for diagnostic use.

This product is a made-to-order SARS-CoV-2 omicron variant S1 Mutation (A67V, del69-70, T95I, G142D, del143-145, del211, L212I, ins214EPE, G339D, S371L, S373P, S375F, K417N, N440K, G446S, S477N, T478K, E484A, Q493R, G496S, Q498R, N501Y, Y505H, T547K, D614G, H655Y, N679K, P681H) protein. The protein is for research use only and is not approved for use in humans or in clinical diagnosis.

Product Specifications

Host Species

SARS-CoV-2

Target Protein

S1 Mutation (Omicron, B.1.1.529)

Protein Class

Host-virus interaction

TMD

1

Product Description

Tag

His tag at C-terminal

Storage

Aliquot and store at -20°C or lower. For long term storage, we recommend to store at -70°C or lower. Avoid freeze/thaw cycles.

Target

Target Protein

S1 Mutation (Omicron, B.1.1.529)

Full Name

Surface glycoprotein

Introduction

Severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) is an enveloped, positive-sense, single-stranded RNA virus that causes coronavirus disease 2019 (COVID-19). Virus particles include the RNA genetic material and structural proteins needed for invasion of host cells. Once inside the cell the infecting RNA is used to encode structural proteins that make up virus particles, nonstructural proteins that direct virus assembly, transcription, replication and host control and accessory proteins whose function has not been determined.~ The structural proteins of SARS-CoV-2 include the envelope protein (E), spike or surface glycoprotein (S), membrane protein (M) and the nucleocapsid protein (N). The spike glycoprotein is found on the outside of the virus particle and gives coronavirus viruses their crown-like appearance. This glycoprotein mediates attachment of the virus particle and entry into the host cell. S protein is an important target for vaccine development, antibody therapies and diagnostic antigen-based tests.

Alternative Names

S Mutation (B.1.1.529); S1 Mutation; Omicron Variant; structural protein; spike protein; Surface glycoprotein
