

Product Information

MemDX™ Human CLDN6 Membrane Protein in Membrane Nanoparticles (MNP), Full Length

Cat. No.: **S01YF-0423-KX4**

This product is for research use only and is not intended for diagnostic use.

This product is Human CLDN6 in MNPs form. Membrane nanoparticles (MNPs) are directly extracted high-purity nano-scale cell membrane particles using a variety of physical and chemical methods in order to guarantee the shape and activity of membrane proteins. MNPs can be used for a wide range of applications in ELISA, SPR, antibody production, antibody discovery, binding assays and functional assays.
